

Commissioners  
Superintendent's Report

February 2, 2026

System Usage	2026	2025
January	6,127,563	5,700,000
Daily Average	197,663	183,870
Max Daily	281,205	290,000
Year to Date	6,127,563	5,700,000

1. Maggi is doing a great job scheduling meter replacements
2. Micah Seneca has started his part time employment with the Precinct. He is already proving to be a great asset.
3. Tony and Micah replaced the front bumper on the utility truck.
4. The loggers are all done in the Gile Forest. Billy Kunelius from the State Nursery will be back in the spring to inspect the Perley Rd. for any needed repairs.
5. Ken Jacques and the TLV crew removed more pine trees that have been shadowing our tank and solar panel. This work is very much appreciated. They have done such a good job.
6. Maggi signed Tony up for a four day backflow tester certification class in Manchester that takes place at the end of this month.

**Workload**

Backflow Testing

Meter Chang Outs

Cut trees at Morgan Pond

Respectfully Submitted,

Rob Thorp
